## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment filed August 18, 2005 has been entered and fully considered.
2. Claims 1, 5-9, 13-19 are pending.  
Claims 2-4 and 10-12 are canceled.  
Claim 19 is new.

### ***Claim Objections***

3. Claims 1, 5-9, 13-19 are objected to because of the following informalities:  
Punctuation is needed at the end of independent claim 1. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:  

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
5. Claims 1, 5-9, 13-19 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for the specific sulfonium salt polymerization initiators of structures OS-8, OS-9 and OS-10 (all of which have three aryl groups and at least two of the three aryl groups are substituted with a chlorine atom), does not reasonably provide enablement for any combination of the chlorine substituted sulfonium salt anion with any counterions Z<sup>11-</sup> claimed. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly

Art Unit: 1752

connected, to make and use the invention commensurate in scope with these claims.

When the sulfonium salts comprise three aryl groups, two of which are substituted with chlorine atoms, only the following structures are supported by the originally filed specification:

[OS-8]

[OS-9]

[OS-10]

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1, 5-9, 13-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. The counter "n" of formulae M-14 - M-17 in independent claim 1 is not defined.

### ***Response to Arguments***

8. Applicant's arguments with respect to claims have been considered. In light of the claim amendments the rejections over Oshima and Shimda et al. are withdrawn.

Art Unit: 1752

***Conclusion***

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
